Ship: **L'AUSTRAL**

From **Ushuaia**

With featured guests Sue Flood, British Photo Ambassador and Cindy Miller Hopkins, American Photo Ambassador.

A 17-day trip in the southernmost waters of our planet to reach the continent of superlatives; that is what PONANT is offering you with this fabulous expedition cruise. The icy landscapes of this other world changes day after day and the polar light leaves you with an intense feeling of peace and serenity.

Tierra del Fuego fades into the distance as your ship heads for the **Falkland Islands**. Composing the wild beauty of the shorelines are beaches of white sand, jagged cliffs, windswept moors and tall grass swaying with the wind.

Your ship will soon take to the seas once again, to reach the mountainous island of **South Georgia**. It is here, in the middle of the black-sand beaches dominated by snow-covered mountains, that **Sir Ernest Shackleton** miraculously ran aground during the famous Endurance Odyssey in 1916. You will travel back in time to (re)discover this fabulous saga and life at this little-known time in history.

Further south, the **South Orkney Islands** will reveal themselves. Latitude wise, you are now above the mythical **Screaming Sixties**. **The Scotia Arc** formed a mountain range that rises on the horizon in the middle of the Antarctic Ocean. You might get the chance to call at **Laurie Island**, where the Orcadas research station is established in a former whaling station.

You will ultimately land on the frozen shores of the nearly inaccessible **White Continent, Antarctica**. White shades take on a thousand nuances as it covers the icebergs, glaciers, mountains and frozen sea all around you. You will be one of the rare few travellers to have laid eyes on this legendary land, the theatre of the greatest expeditions and the witness of the most extraordinary adventures.

Throughout your trip, our team of naturalist guides will share with you the secrets of these faraway lands inhabited by unique wildlife. Discover the **vast territory of the penguins** – Adelie, king, chinstrap, Gentoo, Magellanic, southern rockhopper – albatrosses, numerous species of

seals, and majestic whales blowing on the horizon.

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO.

Discovered in 1821 by seal hunters, they were also explored in 1823 by the British navigator **James Weddell**, who gave them their current name. Despite the ravages caused by whale and seal hunting, today a sizeable **leopard seal** population can be found there, along with **chinstrap penguins** and snow petrels. If there is one place, one sea, one waterway dreaded by tourists, researchers and hardened seafarers alike, it is undoubtedly **Drake Passage**. Seasoned navigators will tell you that you must earn your visit to the White Continent! As the Antarctic convergence zone where cold currents rising up from the South Pole meet warmer equatorial water masses, Drake Passage harbours a very diverse marine fauna.
